DJ Jondal owes his name to one of the most "chilly" beaches of Europe's no. 1 party island IBIZA - the Cala Jondal. His name is program.

DJ Jondal is Martin A. Unger from Munich and can be defined as one of the leading DJs of the electronic chill music in Germany. His career as A&R for a variety of labels (incl. EMI, Mute, Warner Chappell Publ. etc.) and his enormous music back-ground (DJ since 1976 and record-collector since his childhood) build the fundament on which Jondal is moving around as an anchorman in the local chillout scene. Together with Alex Azary (Elektrolux), he has put together the very successful selection of the night-loops "Space Night" for a public television station. Therefore, over the past years fans have been won for a sound, which has outgrown the term "underground". As DJ, Jondal is a regular at relevant clubs and lounges, also part of major parties in Ibiza. Besides all these activities, he is working on his own global chill-out-music-network. Distinctive labels, such as Stereo DeLuxe, Ministry of Sound, Wagram and many others, new media companies and illustrious projects like De-Phazz, value Jondal's consulting with 23 years of professional management experience in the music-business.

Jondal is continuously active - but his music chills like Buddha!
